

## Sponges

 <b>POTTSCORER</b>	Polyester foam with variable pore size, irregular or even cell structure and mechanically very stable. Available in many colors. High degree of indentation hardness and very good abrasion resistance. Extremely good tensile strength.	Mopping sponges, massage sponges, paint rollers, polishing pads, shoe polish dispensers, scouring pads
 <b>SWEEPPEX</b>	Polyester or polyether-based sponges with irregular cell structure and variably-sized pores. Available in many colors and reticulated or non-reticulated. Very good absorbency combined with high elasticity and good mechanical properties.	Cosmetic sponges, household sponges, scouring pads, toilet sponges
 <b>SWEETHANE</b>	Hydrophilic, polyether-based sponges with excellent physical properties. Available in beige.	Household sponges, polishing sponges
